Subject: Domestic Well Samples  
Chem-Solv, Inc. Site, Cheswold, Delaware  
BCM Project Nos. 00-6012-02 and 00-6012-03

Dear Mr. Hansalia:

I am writing in response to your letter to Mary M. Mang dated November 5, 1991, and received by BCM November 7, 1991, providing organic and inorganic data validation reports for domestic well samples collected September 9, 1991. You indicated in the letter that this data is to be included in the revised Final Remedial Investigation (RI) Report which is being submitted November 15, 1991. No sample identification sheet has been provided with the data; the samples are labeled CS-3, CS-4, CS-6, CS-7, and CS-8. In a phone conversation with Stephanie Dehnhard on November 8, she indicated that the samples CS-3, CS-4, CS-6, CS-7, and CS-8 corresponded to the Simon, American Roofing, Gearhart, American Roofing (duplicate), and Durham wells, respectively. Please provide written confirmation of these sample identifications and results from any quality control samples, specifically the trip blank.

This letter will also serve as notification that this data will not be incorporated into the revised Final RI Report. It is not feasible to include additional data into the report with only 7 working days between receipt of data and submission of the report especially since this data will have to be included in the risk assessment.

AR313513

Mr. Dilip R. Hansalia
